CHAPTER: 1 - INTRODUCTION

With the enactment of Anti – Money Laundering / Combating of Terrorist Financing and Know Your Customer (KYC) and Customer Due Diligence (CDD) legislations in Pakistan, AA Exchange Company (Pvt.) Ltd is giving increased attention to implementing these laws. The policy has been enriched by the enabling AML / CFT enacted, particularly by the relevant recognized evaluation bodies Recommendations, country laws, the guidelines of the foreign associates and regulations of Financial Monitoring Unit (FMU) and the State Bank of Pakistan. To provide a further guide and to avoid ambiguity, the guidance on KYC and CDD is also provided to assist the Company in the implementation of this policy.

Company has placed necessary checks and internal controls within the organization to counter money laundering and terrorist financing.

Diligent implementation of the provisions of this policy would not only minimize the risk faced by Company of being used to launder the proceeds of crime but also provide protection against fraud and reputational and financial risks.

This policy applies to all employees of the Company, without exception. This includes the Board of Directors / shareholders and Chief Executive Officer, officers, and other managers, all staff employed with the Company and Sub-Agents (collectively, the “Employees”). Policy should be read in conjunction with a number of related policies and procedures, including the following:

- I. Compliance Manual
- II. Sanction Screening Guidelines
- III. Fraud Prevention Policy
- IV. Standard Operating Procedures
- V. Record Retention Policy

1.1 OBJECTIVES

- I. The aim of this policy is to provide guidance on identifying and controlling risks associated with money laundering (ML) and financing of terrorism (TF) and to prevent criminal elements from using the Company for money laundering and terrorist activities.
- II. It also includes procedures for monitoring and reporting of activities possibly linked to money Laundering or terrorist financing or other predicate offences.

CHAPTER: 2 - DEFINITIONS

2.1 MONEY LAUNDERING

To acquire, possess or deal in a benefit obtained from a criminal act or to facilitate someone else to do so, when knowing or suspecting that the benefit was obtained from a criminal act. Money Laundering is a process by which money or other assets obtained as proceeds of crime are exchanged to “clean money” or other assets with no obvious link to their criminal origins.

There are three steps involved in the process of laundering money: placement, layering, and integration.

- I. **Placement** refers to the act of introducing / depositing criminal proceeds / "dirty money" (money obtained through illegitimate, criminal means) into the financial system
- II. **Layering** is the act of concealing the source / origin of the criminal proceeds through the use of layers of complex financial transactions and bookkeeping gymnastics. These layers are designed to obstruct the audit trail, disguise the origin of funds and provide anonymity.
- III. **Integration** refers to the act of placing the laundered proceeds back into the economy in such a way that they reenter the financial system as apparently legitimate funds.

2.2 REVERSE MONEY LAUNDERING

Reverse money laundering is the process where the money that starts out legitimate and grows “dirty” in its ultimate purpose. This means that instead of “washing” criminal proceeds to make them legal, legitimate funds are withdrawn from formal circulation and pushed into the informal sector to evade taxes, hand in bribes, pay “under-the-table” salaries and sidestep paperwork. Terrorist financing is also often referred to as reverse money laundering as it focuses on utilizing legal assets to carry out terrorist activities, which are often in the form of clean sources such as charitable organizations and legitimate business organizations.

2.3 TERRORIST FINANCING

Fundraising, possessing or dealing with property or facilitating someone else to do so, when intending, knowing or suspecting or having reasonable cause to suspect that it is intended for the purposes of terrorism. Terrorist financing refers to the processing of funds to sponsor or facilitate terrorist activity.

A person commits the crime of financing of terrorism ‘if that person by any means, directly or indirectly, unlawfully and willfully, provides or collects funds with the intention that they should be used or in the knowledge that they are to be used, in full or in part, in order to carry out an offence of terrorism’

2.4 PROLIFERATION FINANCING

Proliferation financing is the act of providing funds or financial services which are used, in whole or in part, for the manufacture, acquisition, possession, development, export, transshipment, brokering, transport, transfer, stockpiling or use of nuclear, chemical or biological weapons and their means of delivery and related materials (including both technologies and dual-use goods used for non- legitimate purposes), in contravention of national laws or, where applicable, international obligations.

2.5 TARGETED FINANCIAL SANCTIONS (TFS)

FATF Recommendation 6 requires countries to implement the targeted financial sanctions regimes to comply with the United Nations Security Council Resolutions (UNSCRs) relating to the prevention and suppression of terrorism and terrorist financing, such as UNSCR 1267(1999) and its successor resolutions, and UNSCR 1373(2001).

It is a regulatory requirement that all the regulated entities shall ensure compliance with TFS obligations. All the applicable lists should be embedded in company's MIS so it can be assured that no listed individual is can take advantage of the company's services.

NEC (National Executive Committee) is responsible to share the list of jurisdiction which are to be considered as High Risk and requires actions against such transactions. The lists are shared on <https://www.fmu.gov.pk/fatf-high-risk-jurisdiction-intl/>

2.6 ANTI-MONEY LAUNDERING AND COMBATING THE FINANCING OF TERRORISM

Anti-money laundering (AML) and Combating the Financing of Terrorism (CFT), refers to a set of Procedures, laws or regulations designed to stop the practice of generating income through illegal actions, to assist in identifying money laundering and terrorist financing schemes, blocking their funding, and ultimately halting terrorist's plans.

CHAPTER: 3 - RISK BASED APPROACH (RBA)

RBA to AML / CFT means to identify, assess and understand the ML/TF risks to which the Company is exposed and take AML / CFT measures proportionate to those risks in order to mitigate them effectively and efficiently.

A risk-based approach takes the following steps in assessing the most effective way to mitigate the money laundering and terrorist financing risks faced by the Company:

- I. Identify the money laundering and terrorist financing risks that are relevant to the Company
- II. Assess the level of associated risks
- III. Understand the impact of the reputational, financial or business risks
- IV. Design and implement controls to manage and mitigate the assessed risks

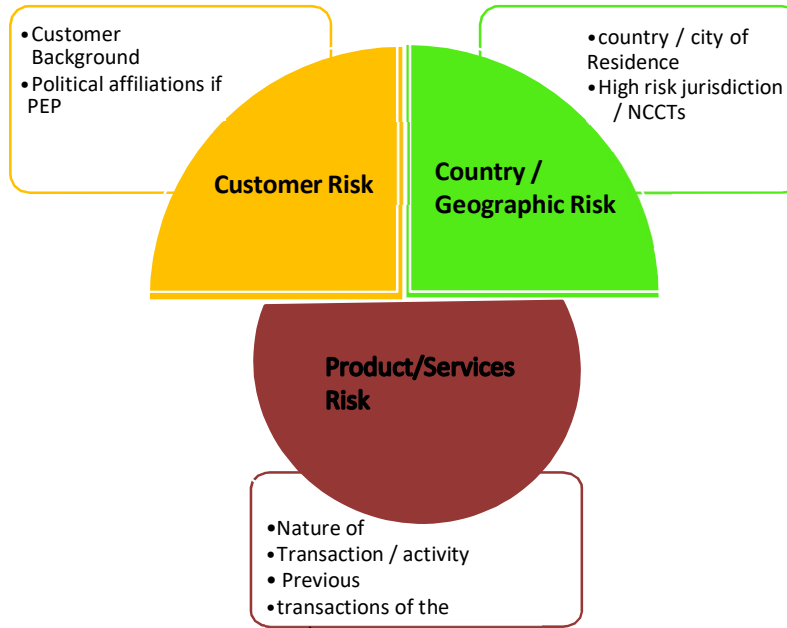

3.1 RISK CRITERIA

Money Laundering and Terrorist Financing risks can be measured by using the following various categories, which can be modified by risk variables. The most commonly used risk criteria are:

- I. Products / Services Risk
- II. Customer Risk
- III. Country / Geographic Risk

All the factors and criteria should be assigned a risk rating based on Internal Risk Assessment performed in the relevant tenure.

I - PRODUCTS AND SERVICES RISK

An overall risk assessment includes determining the potential risks presented by products and services offered by the Company. Following factors should be considered in order to determine the level of the risk associated with the Company’s products and services on the basis of Internal Risk Assessment of 2024:

- I. Global reach of the Product / Services
- II. New Product / Services
- III. Demand of the product / services

PRODUCT		RISK LEVEL
Foreign Currency Sale		High
Purchase		Medium
Outward Money Transfer through Transfer Organizations	Money	Medium
Inward Money Transfer through Transfer Organizations	Money	High
Foreign Telegraphic Transfer and Demand Branchless Banking	Draft	Low
Currency Export		High
		Low

II - CUSTOMER RISK

Determining the potential money laundering risks posed by a customer provides significant input into the overall risk assessment.

Customer’s categorizing according to customer’s occupation, geographical location, Behavior or activity. Categories of customers whose business or activities may indicate a very high, high, medium or low level of risk may include:

CUSTOMER	RISK LEVEL
Non Resident and Foreign Nationals	Medium
Afghan Refugees*	High
Housewives	Low
Property Dealers /Real Estate Agents	Very High
Jewelers /Precious Metals and Gold dealers	High
Students	Low
Politically Exposed Person or PEP(s) (Domestic / International)	High
Lawyers, TCSPs and Notaries	Low
Accountants	Low

Note: Afghan refugees in abysmal circle of poverty and homelessness are perfect prey to exploitation, thus carrying a major TF risk.

*(POLITICALLY EXPOSED PERSONS)

Individuals who are, or have been, entrusted with prominent public functions either domestically or by a foreign country and their family members and close associates. Due to their status and influence, many PEPs are in positions that potentially can be abused for the purpose of committing money laundering (ML) offences and related predicate offences, including corruption and bribery, as well as terrorist financing (TF).

For example, Heads of State or of government, senior politicians, senior government, judicial or military officials, senior executives of state owned corporations, important political party officials or persons who are or have been entrusted with a prominent function by an international organization, refers to members of senior management or individuals who have been entrusted with equivalent functions, i.e. directors, deputy directors and members of the board or equivalent functions.

Family members are individuals who are related to a PEP either directly or through marriage or similar (civil) forms of partnership. **Close associates** are individuals who are closely connected to a PEP, either socially or professionally.

Foreign PEPs: Individuals who are or have been entrusted with prominent public functions by a foreign country.

Domestic PEPs: Individuals who are or have been entrusted domestically with prominent public functions.

International Organizations PEPs: Persons who are or have been entrusted with prominent function by an international organization.

PEP SCREENING /APPROVAL AND IDENTIFICATION BY THE REPORTING ENTITY:

1. Roles and Responsibilities:

- **Front Line Associates (FLAs):** Responsible for conducting PEP screenings and obtaining necessary approvals.
- **Chief Compliance Officer (CCO) / Money Laundering Reporting Officer (MLRO):** Responsible for performing PEP screenings through World Check, evaluating supporting documents, and making approval decisions.

2. PEP Screening by FLAs:

- **Initial Screening:** FLAs screen customers using the PEP database as per the directions of company policy.
- **Identification:** If a customer is identified as a PEP, FLAs must document the PEP status and proceed with the approval process.

3. Prior Approval Process:

- **Submission:** FLAs must obtain formal approval from higher management, including the CCO/MLRO, before proceeding with any PEP transaction.
- **Information Gathering:** FLAs submit detailed information regarding the PEP, including their source of funds, purpose of the transaction, and relationship with the counterparty, to the CCO/MLRO.

4. Screening and Evaluation by CCO/MLRO:

- **World Check Screening:** CCO/MLRO performs a thorough PEP screening using World Check to identify any adverse findings.
- **Supporting Document Evaluation:** CCO/MLRO evaluates the supporting documents provided, including the source of funds and the purpose of the transaction.
- **Transaction Assessment:** CCO/MLRO assesses the PEP's relationship with the counterparty to ensure the legitimacy of the transaction.

III - COUNTRY / GEOGRAPHIC RISK

Country / Geographical risks, in combination with other factors, provide useful information as to potential money laundering risks. Entities and individuals, in countries / geographical areas, identified by Financial Action Task Force or other credible sources as Non-cooperative in the fight against money laundering, providing funds and support for terrorist activities and with significant level of corruption or other criminal activities including illegal drugs, human trafficking and smuggling and illegal gambling, are considered high risk. Company may devise an internal list of high risk countries / geographical areas on the basis of its risk assessment.

In addition to the above, presence of 3 million (approximately) Afghan Refugees in Pakistan poses high vulnerability for transnational terrorism as terrorism financing amount can be transferred across the

AML POLICY - 2024 (v2.5)

border through illegal means. As per the Company's internal risk assessment, all branches in KPK and areas near to border are considered to be high risk.

Besides this in Punjab, regions like Sialkot, Faisalabad, and Sargodha are most material in terms of population affected by potential ML / TF incidences.

GEOGRAPHIC	RISK LEVEL
Khyber Pakhtunkhwa	High
Punjab	Medium
Sindh	High
Baluchistan	High
Countries identified by FATF as Blacklisted	High (NORTH KOREA, IRAN, MYANMAR)

3.2 RISK ASSESSMENT

Internal Risk Assessment is done in order to document the identified ML/TF/PF risks. IRAR shall cover ML/TF/PF risks including Transactional TF risks and other emerging risks to and from the company or organization.

IRAR shall take into account results of National Risk Assessment 2023, major international/domestic financial crimes and terrorism incidents that have probability of posing ML/TF/PF risks. Feedback from SBP, FMU, LEA's and other related stakeholders should be taken into account while conducting Internal Risk Assessment.

PURPOSE OF RISK ASSESSMENT

To effectively prevent money laundering and to combat the financing of terrorism, an assessment mechanism that adopts Risk based approach in accordance with the Company's AML and CFT policy is established to carry out overall assessment of money laundering and terrorist financing (ML/TF) risks so as to assess the procedures, controls, and their effectiveness, in order to address the gaps / deficiencies in the mechanism.

In order to ascertain the Company's inherent and residual risks, Company should conduct its internal risk assessment on an annual basis. Internal Risk Assessment report should include an action plan for review and approval by the Board of Directors.

The risk assessment forms the basis of a Company's RBA. It enables to understand how, and to what extent, the Company or its products and services is vulnerable to ML/TF. To address the above risks in consistency with the objective of fighting corruption, money laundering and terrorist financing, AA Exchange Company (Pvt.) Ltd. has a robust risk management system to detect, mitigate and prevent the business from any potential abuse by determining whether a transaction is a threat or is legitimate.

As the risk categories and criteria is defined above, the next step is to develop a risk assessment method by calculating each risk factor based on the level of impact and threat attributed giving the weightage and risk rating that will enable the classification of risk. Compliance has established risk ranges from 1 to 4 with 1 being the lowest and 4 being the highest to determine the level of associated Risks. The overall risk rating is based on the risk indicators given as under.

1. LOW

2. MEDIUM

3. HIGH

4. VERY HIGH

3.3 MONEY LAUNDERING RELATED THREATS ASSOCIATED WITH PREDICATE OFFENCES

Money laundering (ML) is a cognisable offence under the Anti-Money Laundering Act (AMLA) 2010. For the assessment of ML Threats, 23 major predicate offences were empirically examined in line with FATF methodology. Please note that predicate offences refer to crimes that generate proceeds that are subsequently laundered to make them appear legitimate. ML threat ratings were assigned to 21 predicate offences. As per the assessment, **corruption& bribery, illegal MVTS/ hundi/ hawala, tax crimes, smuggling and cash smuggling** were assessed as 'Very High' risk while **illicit trafficking in narcotic drug & psychotropic substances, trafficking in human beings & migrant smuggling, frauds & forgeries and cyber-crimes** were rated as "High" risk. The remaining predicate offences were assessed as "Medium" or "Low" ML threats from Pakistan's perspective. It is important to consider that the predicate offence of **Organized Crimes** was not separately assigned any rating as its impact has been considered in the assessment of all other predicates, to the extent of the involvement of organized groups in the commission of those crimes. Similarly, **Terrorism and Terrorism Financing** were not rated as their impact was covered under the TF Threats part of this NRA.

Rating Factors: The assessment of ML threats includes;

- i. A review of all the incidents based on the seriousness and magnitude of domestic and international crimes
- ii. The estimated amount of proceeds generated and the potential of money laundering;
- iii. The capacity and resources of criminal actors and their level of sophistication to launder proceeds (including third-party launderers);

- iv. The level of criminal actors to continue committing a crime sustainably, and
- v. The sectors and channels used to launder proceeds.

The tabular form of the ML threat rating against each predicate offence is provided below:

Sr. No.	Type of Crime in Pakistan	ML Threat Rating
		2023
1	Corruption and Bribery	VH
2	Illegal MVTS/Hawala/Hundi	VH
3	Tax Crimes (Related to Direct Taxes and Indirect Taxes)	VH
4	Smuggling; (Including Customs Duties and Taxes)	VH
5	Cash Smuggling	VH
6	Illicit Trafficking in Narcotic Drugs and Psychotropic Substances	H
7	Trafficking in Human Beings and Migrant Smuggling	H
8	Fraud and Forgery	H
9	Cyber Crime	H
10	Kidnapping, Illegal Restraint and Hostage-Taking	M
11	Illicit Arms Trafficking	M
12	Extortion	M
13	Insider Trading and Market Manipulation	M
14	Counterfeiting and Piracy of Products	M
15	Environmental Crimes	M
16	Robbery or Theft	M
17	Sexual Exploitation, Including Sexual Exploitation of Children	L
18	Illicit Trafficking in Stolen and Other Goods	L
19	Counterfeiting Currency	L
20	Murder, Grievous Bodily Injury	L
21	Maritime Piracy	L

Key ML Sources and Channels

The ML threat assessment of predicate offences indicated that most of the funds used in money laundering were the illegal proceeds generated from committing the predicate offences; however, the activities like underreporting of legal business income/trade volume/wages/investments, as well as hiding assets or funds in offshore accounts or other undeclared financial irregularities also resulted in money laundering. The major channels used to launder proceeds generated from predicate offences included illegal MVTS/ hundi/ hawala, cash smuggling, bank accounts, real estate, construction industry, cash-intensive businesses, DPMS, and front & shell companies, etc. A summary table of key sources and channels used for ML is provided below:

Table 3.3. (b) Key Sources and Channels used for ML	
Sr. No.	Major Sources
1	Illegal proceeds generated from committing predicate offences including but not limited to embezzlement, kickbacks/commissions/bribes, extortions, drug trafficking, human trafficking, bonded labor, illegal organ removal, corruption, smuggling, fraud, illegal gambling, smuggling of people and weapons, tax evasion, false tax claims/credits/refunds, hawala/Hundi or any other predicate offence listed in the Schedule-I of AMLA,2010.
2	Under-invoicing or over-invoicing as well as underreporting of legal business income/trade-volume/wages/investments, as well as hiding assets or funds in offshore accounts or other undeclared financial irregularities.

8	Payment through intermediaries/ third parties
9	Investment in real estate/ Precious metals & stones/ other high-value assets
10	Investments in stocks/bonds/investment funds
11	Cryptocurrency

3.4 TERRORISM AND TERRORISM FINANCING RELATED THREATS

Pakistan has been fighting the menace of terrorism for the last two decades. Although terrorism incidents have been declining over the past few years since 2016, except for 2022, there remains a threat of terrorism and its financing due to the presence of terrorist organisations (TOs) in the region. Utilizing the expertise of National Counter Terrorism Authority (NACTA), Pakistan formed a working group to conduct the assessment of terrorism and terrorism financing threats. The working group was led by the NACTA and included federal and provincial authorities to get input and data from all the relevant stakeholders on the overall landscape of terrorism and terrorism financing in the country. The assessment also took into account international reports and reliable open-source information.

Pakistan has proscribed 78 terrorist organizations under the Anti-Terrorism Act 1997, which is available publicly on the NACTA website. Please note that all these 78 proscribed TOs are not active rather, most of them are inactive, dismantled or merged into other TOs. A detailed **assessment of TF threats** was carried out during the NRA 2023 process by assessing a total of 87 terrorist organisations (TOs), including 78 proscribed TOs as well as some other non-proscribed and UN-listed entities. Based on the data provided by LEAs and from the intelligence inputs, it was found that 41 terrorist organisations have been active in Pakistan with varying degrees of operations. The rest of the TOs have either been dismantled, merged into other organisations or inactive for long. Based on the assessment, **04TOs were considered as “very high” risk, 08 as “high” risk, 07 as “medium” risk and the remaining 68 as “low” risk.**

Key TF Sources and Channels:

LEAs regularly consider and examine possible sources and channels during TF investigations which could be exploited or misused by terrorist organizations to fund their activities. A detailed assessment of these sources has been carried out during NRA 2023, considering their prevalence in TF investigations since 2019, use of the sources by TOs in funding their activities and the perceived TF threat posed by each source. A detailed assessment of the sectoral channels has also been carried out by considering TF investigations involving these channels since 2019, relevant terrorist organizations, if any and perceived TF threats posed by each channel, including potential for misuse in TF. A summary table of risk ratings of all sources and sectoral channels exploited for TF is provided below

Table 3.4. Key Sources and Channels exploited for TF		
Sr. No.	Sources	NRA 2023
1	Donations	Very High
2	Extortion	Very High
3	Narcotics trafficking	High
5	Cash smuggling	High
4	Misuse of Properties	Medium
6	Kidnapping for ransom	Medium
7	Goods/ Natural resources smuggling	Medium
8	Skin/ Hides collection	Low
Sr. No.	Channels	NRA 2023
1	Cash/ Cash couriers	Very High
2	Illegal MVTS	Very High
3	Banking	High
5	Branchless Banking	High
4	Virtual Currency	Medium
6	Exchange Companies	Medium
7	Securities	Low
8	Insurance	Low
9	NBFCs & <i>Modaraba</i>	Low
10	Microfinance	Low
11	Legal persons & legal arrangements	Low

Please note that Pakistan has a large, diverse, and vibrant Non-Profit Organization (NPO) sector and an overall assessment revealed that 6.75% of the NPOs are high-risk whereas 43.64% consists of Medium-risk and 49.61% are Low-risk

3.5 RISK INDICATORS

Activity(s) that could be an indicator of illegitimate transaction

SR. NO.	RISK INDICATORS	RATING
INTERNATIONAL MONEY TRANSFERS / REMITTANCES		
1	High volume / frequency of transactions (through MTOs ONLY) over a short period of time i.e. (i) More than one transaction on same / consecutive days	3
2	High Value Transactions through MTOs ONLY (Equivalent or above 500,000 PKR in a single transaction)	3
3	Suspicious / Lack of apparent relationship between the sender and beneficiary (the receiver)	3
4.	Transaction that apparently does not fall into the category of Home Remittance / Worker Remittance.	3
5. Investigator reviews the KYC / CDD / EDD and supporting data retained by the Front Line Associates and add comments on the quality of transaction information against each highlighted case Compliance uses multiple tools for investigation i.e. Through electronic media, FBR Database, World Check by Refinitiv and other sources; the Compliance officer may also interview the Front Line Associate / customer and acquire further details of the transactions
- viii. Once the investigation is completed, the report is shared with the Chief Compliance Officer for review and decision for filing / non-filing of STR, interdiction and for putting the customer / Transactions under monitoring
- ix. Chief Compliance Officer shares the report with the Chief Executive Officer for review, and internal enforcement actions where necessary

Chief Compliance Officer shall be independent in decision of filing / non-filing of STR, maintaining / terminating the business relationships, putting the customer under monitoring and for interdicting the client. Further, off-site report will be shared with the relevant branches for their information.

TRANSACTION MONITORING/SCREENING SYSTEM

AA Exchange has adopted a state-of-the-art transaction monitoring and screening system, through which transactional data is screened against all the embedded lists. Transaction Monitoring is being performed real time against all the predefined rules and criteria's.

Transaction monitoring can also be categorized as:

1. Systematic Monitoring
2. Manual Monitoring

Every transaction is first monitored through system then manually by compliance team (rule and name matched transactions).

SYSTEMATIC/AUTOMATIC MONITORING

Systematic monitoring system assess each transaction against predefined rules (mentioned above) and then proceed the transaction accordingly i.e. either release the transaction or block/hold for compliance review.

MONITORING PROCESS

System screens every transaction against set criteria i.e. Name matched based on percentage and Transactions Thresholds rule to assess the related risks accurately and quickly. After screening, the transaction will released automatically or blocked for compliance review (as elaborated below):

1. System will check if customer's name is matched with any of the listed person and then it will hold the transaction for compliance review.
2. In case of NACTA list, system will check Customer's CNIC/ID Number against NACTA listed person:
 - a. System will not let the transaction to be generated in case "CNIC matched" is found.
 - b. In case "CNIC not Matched" in NACTA list, system will check the name from other lists and will take a decision based on findings.
3. Based on findings i.e. percentage of matches, system will release or block the transaction
 - a. Released transaction will be forwarded for auto monitoring.
 - b. Blocked transaction will be reviewed manually by compliance team to decide either to "Release or Refuse".

TRANSACTION MONITORING RULES

System monitored associated risks with customer, product, geography and distribution channel through different rules (mentioned below) is monitored by implementing several rules in the system.

1. "Name matched Rule" based on Percentage of name matched with Lists i.e. UNSC, EU, SBP Year Limit, NACTA, FIA RED BOOK, HMT, OFAC, and Internal Block List.
2. "Amount Based Rule" (e.g. Regulatory Threshold limits) to trigger any possible structuring.
3. "Transaction Frequency" Based Rules to check the nature of customer business relationship with us/legitimacy of the transactions.
4. "Address Based Rules" to monitor transaction of the High Risk Jurisdiction customer more thoroughly, High Risk residential address, same address against multiple customers.
5. "Sender Count Rule" and "Receiver Count Rule" in IR and OR Remittance.
6. "Product Based" rules to monitor and assess the risk based on type of products a customer has used or willing to use.
7. Currency Checks (FCY)
8. Locations/Branches Count (IR/OR & FC)
9. Countries Check (Monitor Risk and count of countries)
10. Contact Number (Check if multiple customers are registered against same contact number)
11. Nationality Check (Monitor the risk based on customer's/sender's/receiver's nationality).

"These rules shall be reviewed regularly and can be updated according, rules can be add /deactivate with the passage of time depending upon the risk associated to the relevant factor".

After monitoring each transaction, transaction is rated according to the associated risks i.e. High, Medium, or Low.

MANUAL SCREENING

After a transaction is blocked (after systematic screening) compliance team reviews the transaction and customer's profile to confirm if transaction is fully compliant according to rules and regulation.

There are set procedures which are followed while manual screening (depending on the cases) i.e.

1. Compliance team will compare customer's credentials against matched individuals' credentials i.e. Name, Father Name, Date of birth, Address, ID number and Nationality (in Name matched Rule), and
 - a. In case sufficient evidences are found to verify that customer is different from matched sanctioned person, compliance team will release the transaction by adding reason/remarks to support their decision. (Compliance Team may suggest branch staff to retain ID against such person)
 - b. In case compliance team can't verify the difference (with the help of all available information), transaction will be refused after adding reason/remarks to support their decision.

- Compliance team may require extra information (Including occupation, exact purpose, relationship with counter party, Source of funds etc.) to confirm the financial sense of the transaction. EDD is advised accordingly and documentary proofs might also be collected as evidence (In Rule base transactions).

4.6 KNOW YOUR PARTNER - OFFSITE DUE DILIGENCE PROCESS

In order to comply with Company's obligations as prescribed by the KYC / AML / CFT regulations of the State Bank of Pakistan, the Company requires that all external parties with whom it carries out business apply ethical principles that are consistent with its own. External parties include, but are not limited to, Foreign Entities, Money Transfer Organizations and other Exchange Companies.

Proper due diligence procedures enable the Company to follow through on its commitment to act with integrity by protecting against partnering with companies and individuals that do not operate pursuant to ethical principles. Due Diligence procedures also minimize reputational and legal risks, by investigating potential correspondent entity's' past and current ethical standing.

SELECTION STAGE

- i. Only those entities that have effective AML / KYC policies and are effectively supervised by the relevant authorities should be selected for agency agreements.
- ii. No arrangements should be entered into or continued with a correspondent entity incorporated in a jurisdiction in which it has no physical presence and which is unaffiliated with a regulated financial group.
- iii. Company should pay particular attention, when continuing relationship with entities located in jurisdictions that have poor KYC standards or have been identified by Financial Action Task Force (FATF) as being "non-cooperative" in the fight against Money Laundering.

PRE-AGREEMENT STAGE

- i. Copy of License issued by the concerned regulatory body should be obtained and it should be confirmed that the entity has power to enter into or execute such arrangements.
- ii. Investigation of their credentials and market reputation
- iii. Network Size and its details
- iv. List of their existing partners / associates
- v. Ownership Structure and Details
- vi. AML / CFT Policy should be obtained
- vii. AML and KYC Questionnaire for External Correspondent Entities (Appendix-II) should be filled and signed by the their Compliance Officer

All agreement arrangements should be made with the principal company

In case of agreement arrangements with a Foreign Entity, Company shall also have understanding of legal and regulatory framework of the jurisdiction involved with respect to the following:

- i. Rules related to licensing requirements
- ii. Rules regarding opening / closing / shifting of business locations
- iii. Anti-Money Laundering and KYC requirements
- iv. Laws and regulations related to overseas agency arrangements.

POST AGREEMENT STAGE

- i. Company should continuously monitor the market reputation and financial condition of the external partners / agents
- ii. Ensure that External Parties are made bound to immediately bring into the notice of the Company any change in laws, rules and regulations which may affect business arrangements and any change in its network
- iii. Ensure that prior approval from SBP is obtained for any subsequent changes in the agreement

CHAPTER: 5 - SANCTION SCREENING

Sanctions Screening is the process of reviewing sanctions lists to check if any individual(s) is or has been involved in financial crime or terrorism financing, in order to take appropriate measures.

To implement the targeted financial sanctions regimes to comply with the United Nations Security Council Resolutions (UNSCRs) relating to the prevention and suppression of terrorism and terrorist financing, such as UNSCR 1267(1999) and its successor resolutions, and UNSCR 1373(2001) applicable lists i.e. UNSC and NACTA are embedded in the Company's Management Information System 'MIS' for transactions screening. To protect and safeguard the Company from any reputational damage, fines and to mitigate the TF risks, other lists including OFAC, HMT, EU, and FIA Redbook are also embedded in the system and updating regularly.

Note: *For complete procedure and mechanism, please refer to the Company's Sanction Screening Guidelines.*

5.1 WORLD CHECK

In addition, Company has a separate global sanctions database 'World Check' as a support tool for KYC verification and risk assessment in areas such as PEP monitoring, sanction screening, AML / CFT risk, and anti-bribery and corruption.

Note: *Compliance team shall frequently use electronic media as an independent source of information for the determination, monitoring, verification of information in relation to high risk customers / transactions.*

CHAPTER: 7 - CURRENCY EXPORT

The core business of the exchange company of Category-A is to deal in the sale and purchase of foreign currency and to collect several different currencies from different parties including following;

- i. Own locations.
- ii. Other exchange companies.

Hence there was a need to set up a structure which would assist the exchange companies in Pakistan to export the currencies outside Pakistan and bring back the designated USD after necessary conversions back to Pakistan. This exercise keeps the open market USD prices in check and liquidity position improves significantly.

7.1 CASH COLLECTION (FOREIGN CURRENCY TO BE EXPORTED)

Available cash (Foreign Currency to be exported) is deposited to the designated branches in each region. From there Cash is transferred to another designated branch, where it is counted again, checked and packed as per SBP's instructions.

Further following procedures should be followed:-

Exchange Companies are allowed to export all foreign currencies other than US Dollars on consignment basis through cargo/security companies. Prior approval from SBP is mandatory before starting the foreign currency export business. (EPD Circular letter No. 06- dated May 24, 2021) (Revision of Chapter 5)

- i. Currencies other than US Dollars are permissible to be exported by the SBP
- ii. Minimum of 10% of US Dollars received against export of foreign currencies are to be sold in interbank on an ongoing basis.
- iii. Currency Export is to be done through SBP & Pakistan Customs Joint Booths located at international departure lounges of designated airports i.e. Jinnah International airport-Karachi, Allama Iqbal International Airport -Lahore, Islamabad and Bacha Khan international Airport- Peshawar.
- iv. Foreign Currency Deal must be finalized with overseas entity before the shipment of each export consignment. The system generated deal ticket (specifying consignee name, address, contract details, amount, exchange rate etc.) must be accompanied with each request for exporting permissible foreign currencies.
- v. Currency carrier representative must approach the SBP & Customs joint booth 4 hours prior to the scheduled departure time of the flight through which export of currency is intended to be made or 02 hours prior to the closure time of the SBP –Custom joint booth whichever is earlier.

- vi. All currencies presented at SBP-Customs joint booth should be in packets Of 100 notes each of the same currency and denomination.
- vii. Loose notes can only be exported twice in week i.e. on Wednesday and Saturday
- viii. Following are the documents, should be with carrier.
 - a. Cover letter/Export declaration in triplicate
 - i. Containing UTN (**Unique Transaction Number**) on cover letter i.e. Company's Initials, Transaction Number and financial year
 - ii. Addressed to State Bank of Pakistan and Pakistan Customs
 - b. Summary of shipment
 - i. Including amount
 - ii. Including count of different currencies denomination notes
 - iii. Local bank account details in which settlement amount will be credited
 - iv. Counterparty's detail
 - c. Authorization letter
 - d. Deal tickets
 - e. Any other relevant documents including export permission letter and company's License must be presented at the SBP and customs joint booth with the currency which is to be exported.
- ix. All the documents should also be maintained for record keeping purpose.
- x. After all the checks (by SPB and customs) currency is cleared to be exported and can be carried only if SBP and customs sign and stamps are embossed on the currency packets.

After the recent instruction and new guidelines by the State Bank of Pakistan, currency export can be done using authorized currency cargo services provider.

All the mandatory documents, with the physical currency can be handled on behalf of AA Exchange Company by nominated cargo/security company:

- i. An agreement has been signed between AA Exchange and Cargo/security Company
- ii. Deal has been finalized with the counterparty after mandatory due diligence and ticket (Against the deal) has been generated
- iii. Cargo/security Company will initiate the export as per SBP and Pakistan customs directives.
- iv. Settlement against the export will be done in local bank FC account within 05 working days.

7.2 SETTLEMENT AGAINST THE EXPORT

- i. Local bank foreign currency (US – Dollars) account must be credited within 05 (Five) working days against the export of foreign currency other than USD
- ii. ECs should maintain separate FC accounts for receiving proceeds against export of permissible FCs for reconciliation purpose.
- iii. No other remittances and foreign currency cash shall be deposited in these accounts.

7.3 DUE DILIGENCE OF CARGO /SECURITY COMPANY

Proper due diligence procedures enable the Company to follow through on its commitment to act with integrity by protecting against partnering with companies and individuals that do not operate pursuant to ethical principles. Due Diligence procedures also minimize reputational and legal risks, by investigating potential correspondent entity's' past and current ethical standing.

- i. EC's shall satisfy themselves before entering into the contract with the cargo/security company registered in Pakistan
- ii. EC's shall ensure that the contract /agreement with the cargo/security company is at Arm's length Basis.

CHAPTER: 9 - UNSC, NACTA & OTHER RELEVANT INTERNATIONAL AGENCIES / EVALUATION BODIES

For the development and implementation of appropriate measures and procedures on a risk based approach, and Due Diligence Procedures, the Compliance team consults data, information and reports from;

9.1 UNITED NATION'S SECURITY COUNCIL (UNSC)

The UN Charter established six main organs of the United Nations, including the Security Council UNSC. It gives primary responsibility for maintaining international peace and security to the Security Council, which may meet whenever peace is threatened.

UNSC has the power to make decisions that member states are obligated to implement under the Charter. Security Council sanctions have taken a number of different forms, in pursuit of a variety of goals. The measures have ranged from comprehensive economic and trade sanctions to more targeted measures such as arms embargoes, travel bans, and financial or commodity restrictions. The Security Council has applied sanctions to support peaceful transitions, deter non-constitutional changes, constrain terrorism, protect human rights and promote non-proliferation.

The Consolidated Sanctions List includes all individuals and entities subject to sanctions measures. <https://www.un.org/sc/suborg/en/sanctions/un-sc-consolidated-list>

9.2 NATIONAL COUNTER TERRORISM AUTHORITY (NACTA)

National Counter Terrorism Authority (NACTA) is an Internal Counter-terrorism Authority of Pakistan. NACTA is mandated to devise a counter-terrorism strategy that should address short, medium and long-term goals and devise action plans for their implementation. NACTA maintains a list of Fourth Schedulers under Anti-Terrorism Act, 1997.

Any individual about whom either there is a credible intelligence-information or who has a history of being linked to a Proscribed Organization can be proscribed by Home Department of a Province and can be subjected to restrictions on travel, speech and business, under the Anti-Terrorism Act, 1997. After issuance notification by the Home Department, name of such proscribed person is included in the 4th Schedule under the Anti-Terrorism Act, 1997. Therefore, such proscribed persons are also referred to in local Police/ LEAs parlance as 4th Schedulers.

9.3 OFFICE OF FOREIGN ASSET CONTROL (OFAC)

A department of the U.S. Treasury that enforces economic and trade sanctions against countries and groups of individuals involved in terrorism, narcotics and other disreputable activities.

List issued by the Office of Foreign Assets Control (OFAC), USA.
